

Average Futures Contract

What: A pricing tool that averages the closing December 2019 futures price between April 15, 2019 and July 15, 2019.

Why: This contract diversifies your marketing strategy, lets you wait to set basis and automatically executes daily.

*This example highlights the December 2017 futures Averaging period in 2017.

Delivery Options: The average price will be based on December 2019 futures. You may set basis for delivery any month we are bidding vs December 2019 futures or roll delivery to a future month for a two cent roll fee. Basis must be set prior to delivery or no later than November 26, 2019.

Enrollment Period: All contracts must be written by April 12, 2019. No minimum or maximum bushel amounts.

Cost: .03 cents/bushel
